

Introduction to Construction Drawings and Specifications

An ABC Workforce Development Training Class

Presented by:
Chris Chapman
Sr. Project Manager
Dana B. Kenyon Co.

**Six hours of introductory plans reading in a three-part class.
(Registrants must be able to attend all three sessions.)**

- Learn how to read and understand construction drawings and specifications, including site plans, structural and architectural plans, and MEPs.
- This is an excellent primer for those new to the construction industry or those who are just beginning to work with drawings.
